

Miniature Engineering Skills & Craft Stick Bending Newsletter

Designed for Scouting, Home Schooling and Engineering Classes

Fall 2011

Brought to you by www.pioneeringcompetitions.com and www.craftstickbending.com

Issue #2

PioneeringCompetitions.com and...

- **Boys Life Magazine**

Two of our videos appear on BoysLife.org under "Your Photos & Videos", "Robotic Merit Badge", last page.

Salvaged robot from Goodwill now supports BSA and USA.

- **Mt. Tahoma District Engineering/Scouting Jamboree**

Displayed my engineering booth. We also had an engineering and remote control vehicle construction and demolition table where the Scouts could build and be inventive.

An RC car rear end converted to table saw and disc sander.

CraftStickBending.com and...

- **Puget Sound Popsicle Stick Bridge Building Competition**

Craftstickbending.com is proud to sponsor the ASCE (American Society of Civil Engineers) competition by supplying the 40,000 food grade, made in America popsicle sticks being used by the high school students to construct the bridges.

Craft Stick Bending Tips & Tricks DVD being sold this fall.

- **Craft Stick Bending and Kitsap Makers Fair**

Introduced www.craftstickbending.com at the Kitsap Mini Maker Faire. Had two full tables of crafts made from the new art, craft and engineering of craft stick bending. MakerFairs.com is a growing national movement to promote inventing, creating and sharing of hand made creations.

Have engineering booth, will travel!

Got ?'s: brad@pioneeringcompetitions.com

...Opportunity!...

Your troop can be one of the first ten to put on a Pioneering Competition as requested by BSA.
